EDUCATION

Gopalganj Science and Technology University — Gopalganj, Bangladesh Dec 2024
B.Sc. in Computer Science and Engineering | CGPA: 3.13 / 4.00

RESEARCH PUBLICATIONS

"Understanding Link Sharing Practice in NPM Related Tweets by Package Maintainers Community" — In Press
Communications in Software and Systems | Supervised by Asst. Prof. Syful Islam, GSTU

- Conducted mixed-methods analysis of 18,408 links from 39,426 tweets by NPM package maintainers on Twitter
- Found 40% of tweets contain links; blog posts and tutorials are the most shared targets; GitHub is the top external domain
- Identified 5% link decay rate; proposed ethical link-sharing guidelines for the JavaScript developer community

"Predicting CSE Undergraduate Students' Careers Using Machine Learning Algorithms in the Context of Bangladesh" — Under Review

IEEE Conference | Supervised by Asst. Prof. Saleh Ahmed, GSTU

- Proposed the first multi-label career prediction framework for CSE undergraduates in Bangladesh using real survey data from 468 students across 47 universities
- Evaluated 10 ML classifiers; XGBoost achieved the best accuracy (61.70%), Recall (0.737), F1 Micro (0.792), and lowest Hamming Loss (0.060)
- Collected 24 features including CGPA, technical skills, soft skills, research experience, publications, and preferred job sectors

EXPERIENCE

Software Engineer — Trickcel (Remote) Dec 2024 – Present

- Developing production-grade e-commerce platform UI using Angular and Tailwind CSS, currently serving real users
- Integrated RESTful APIs for product catalog, shopping cart, and order management
- Collaborating in agile workflows using Git and GitHub with cross-functional remote teams

Learnathon 3.0 — Brainstation23 (Industry Training Program) Dec 2024 – Jun 2025

- Completed intensive industry-mentored program covering Django, Software Design Patterns, Version Control, and Database Management through real-world projects

PROJECTS

CSE Career Prediction — Research Project

- Proposed the first multi-label ML framework predicting career paths for 468 CSE students across 47 universities in Bangladesh
- Compared 10 classifiers (XGBoost, Random Forest, SVM, Neural Network, KNN, Voting Ensembles); XGBoost ranked best across all metrics
- Tools: Python, Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib | Linked to peer-reviewed research paper

IELTS Daily Tracker — AI-Integrated Web Application

- Built a full-stack IELTS preparation tracker with AI-powered writing review using both OpenAI GPT and Google Gemini APIs
- Features include daily practice logging, automated AI writing feedback, score tracking, and progress visualization
- Tools: Python, Laravel, OpenAI API, Google Gemini API, PostgreSQL, Tailwind CSS

LMS — Learning Management System (Production)

- Developed full frontend for a production LMS handling course management, student enrollment, assignment submission, and email notification system
- Built admin dashboard for managing students, courses, and tracking progress; backend integration with Laravel APIs
- Tools: Laravel, MySQL, Blade, Bootstrap | Currently live in production

E-commerce Platform — Production (Trickcel)

- Production-grade e-commerce platform with Angular frontend, currently serving real users
- Integrated product, cart, and order management APIs; maintained CI/CD workflow using Git
- Tools: Angular, Tailwind CSS, REST API

CareHUB — Salon & Parlor Booking Platform

- Online booking system for finding, comparing, and booking salons based on reviews, pricing, and availability
- Implemented real-time time-slot booking and barber selection for personalized user experience
- Tools: Django, PostgreSQL, Tailwind CSS, JavaScript

CERTIFICATIONS

Data Analysis with Python

May 2024 – Sep 2024

- 80-hour certified training program by Bangabandhu Sheikh Mujibur Rahman Science and Technology University
- Issued under EDGE Project — Enhancing Digital Government and Economy, Bangladesh Computer Council, ICT Division
- Certificate: [View Certificate](#)

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, TypeScript, PHP

ML / Data Science: Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib, Seaborn, NLTK

Web Development: Django, Angular, Laravel, React, Tailwind CSS, HTML/CSS, REST API

AI Integration: OpenAI GPT API, Google Gemini API, LLM application development

Tools: Git, GitHub, VS Code, Figma, Jupyter Notebook, LaTeX, PostgreSQL, MySQL

COMPETITIVE PROGRAMMING

3,200+ algorithmic problems solved across multiple platforms:

Codeforces: Specialist (top 15% globally) | Rating: 1462 | [Profile](#)

LeetCode: Knight | Rating: 1820 | [Profile](#)

CodeChef: 4★ Coder | Rating: 1812 | [Profile](#)

AtCoder: Rating: 823 | [Profile](#)

ACHIEVEMENTS

- Ranked 1st in Bangladesh — June CodeChef Starters 2021 (Division 3)
- 3rd Place — UGV South Zone Programming Contest (Team)
- 4th Place — KU Programming Contest (Team)

LANGUAGES

- English — Professional Proficiency
- Bengali — Native
